Partheev Budarapu

Partheev
Full Stack Web Developer

A guy with self-motivation and a passion for Computer Science. Have good experience working with teams and handling challenging problems in software development. I have 2+ years of experience in developing full-stack (MERN) web applications. I led multiple teams while I was working on personal projects and during the hackathons. I follow the best practices and write clean code while working on projects. Have the ability to learn new things on the fly and adopt new tech-stacks.

Experience

Frontend Intern / Intugine Technologies   July 2022 – Dec 2022
- Built a dashboard using Reactjs and Material-UI to modify the client's configuration.
- API integrations

Full Stack Developer Intern / TechPranee   Mar 2022 – Sep 2022
- Worked on developing an e-commerce website, health care platform using Next.js, and Student Learning platform.
- Integrated third-party services like payment gateway, shiprocket (products shipments), firebase, and Google authentication.
- Handled modifications in existing client projects.

Projects

Nutrition Assistant WebApp
A Nutrition Assistant to control diet, manage food habits, and keep good health. Developed frontend (React) and backend (Flask) applications with integration of AI services. Deployed 3 microservices to provide scalability and improve the availability of the app. Used Redhat Openshift to deploy the microservices, firebase to store images, and IBM DB2 service for the database.

Interactive Puzzle Game
Web based interactive puzzle game to assess soft skills. Tests user picture-analyzing skills and observation skills toward minute details. Game analytics are provided to the admin to analyze user performance.

Achievements

IBM Hack Challenge 2022 Jury Award
Our team was declared as the Runner-up team of the IBM Hack Challenge 2022, a national-level hackathon by IBM with 20,000 enrollments. I led our project as Team leader of my team, we developed and deployed Nutrition Assistant Mobile-First web app.

Flipr Hackathon XIII Winners
We were declared Winners by securing an A+ grade. Developed and deployed C2C (Customer to Customer) personal loan lending platform.

Skills

JavaScript • Typescript • React • Next.js •Node.js • Material-UI • MongoDB • SQL • Golang • Database Design • Docker • C++ • Full Stack Web Developer • Cloud fundamentals • Python • Flask • Data Science libraries

Education

2020-2024

Computer Science and Technology / G. Pulla Reddy Engineering College, AP, India.
CGPA: 8.4
